MESSAGE FROM THE EXECUTIVE DIRECTOR

Dear Sponsors, Partners, and Friends of CREW,

We are pleased to provide this annual report for 2023 and share with you the progress of Community Resources for Education and Wellness, Inc. (CREW) as we work towards fulfilling our mission to collaborate with public and private organizations in our communities and to provide facilities, programs, and services that cultivate healthy minds, bodies, and spirits of all in our community.

CREW was formed in 2023 as a Virginia nonprofit corporation. We also received our IRS classification establishing CREW as an 501c3. CREW registered on Candid, a transparency platform for nonprofits, and we developed and finalized our strategic plan. Serving as Executive Director, I will do my utmost in due diligence and lead with diplomacy, transparency, and forthrightness.

We ended 2023 with total assets of \$199,164.57.

As we move forward into 2024, we want to especially recognize and thank Randy Doyle who had a vision for and gave countless hours over several years to the creation of a community center. Randy and his wife, Denise, served as board members as well as President and Secretary, respectively. Randy and Denise's commitment and enthusiasm will not be forgotten. We wish them all the very best in their future endeavors.

We are very grateful to all the sponsors, partnerships, Friends of CREW, and volunteers who have generously supported CREW. We will continue to strive to be exemplary stewards of the resources you have entrusted us with and maintain compliance with nonprofit best practices.

On behalf of the Board and myself, thank you for your belief in the mission and continuous patronage.

Sincerely,

Kim Cassford

A Tribute To Our Visionaries

A group of committed and passionate community leaders, now our Board of Directors, formed Community Resources for Education and Wellness, Inc. Many hours have been dedicated to move things forward toward development of CREW's vision.

Bill Holtzman was the first individual to donate. He provided CREW the resources and the ability to hire an Executive Director and future additional personnel without restrictions. We want to thank Bill for having faith and vision in CREW.

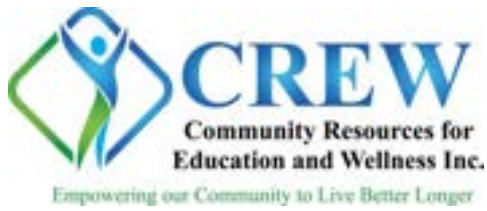

All the Rotary Clubs of Shenandoah County were the first civic organizations to come together and approach CREW with their vision of the Rotary Learning Lab. They secured a matching grant to outfit one room of the historic building with state-of-the-art technology with all the learning accoutrements necessary for all our community to learn and grow for years to come and to provide opportunities to which they might not otherwise would have access.

The Town of Mount Jackson provided our first municipal support. Their support has enabled CREW to have the ability to create and launch community programming activities for 2024.

Others came forward in support, which has been monumental for any nonprofit in its first year. We thank everyone for your contribution whether in-kind, monetary or via services that has been supportive of CREW and helping us become both a sustainable and impactful resource facility in Shenandoah County.
